 Survey of Canadians on Federal Politics - September 2019

Results are based on an online study conducted on September 24 and September 25, 2019, among 1,000 adults in Canada.
 The data has been statistically weighted according to Canadian census figures for age, gender and region in Canada.
 The margin of error—which measures sample variability—is +/- 3.1 percentage points, nineteen times out of twenty.

As you may know, there are 338 seats for Members of Parliament in the Canadian House of Commons. After this October's election, how many of those 338 seats would you like to see filled by people who are under 40 years old? Please type your response—in number form—in the box below.
